1. National Sports University at a glance

1.1 INTRODUCTION

The National Sports University, Manipur was set up in 2018, with a tentative project cost of over Rs.500 crores. The University is presently functional from its temporary campus at the KhumanLampak Sports Complex, Imphal. Prime Minister Shri Narendra Modi has already laid the foundation stone for the University's proposed 325 acre campus at Imphal West, on 16th March 2018. Dr. Najma Heptulla, Governor of Manipur, Shri N. Biren Singh, Chief Minister, Manipur, Col. Rajyavardhan Rathore (Retd.), AVSM, Minister of State (Independence Charge) Youth Affairs & Sports were also present on the occasion of laying of Foundation Stone of the University. The construction work is underway at the proposed site.

A state like Manipur which has produced many sportspersons of international repute, more than deserves a state-of-the-art sports university which will further give the much-needed push to produce more prodigies.

India already has several state universities focusing on sports education including a Deemed University. But NSU is the first Central University to be set up in India with the objectives of focusing on sports education and producing top athletes, sports scientists, and physical educationists.

The National Sports University will have the flexibility to open new schools/departments in consonance with the advances and developments in sports science, sports medicine, and allied areas.

The University, once developed, will be the first one of its kind to promote sports education in the areas of sports sciences, sports technology, sports management, and sports coaching. It will also function as the national training centre for selected sports disciplines by adopting the best international practices by signing Memoranda of Understanding (MoU) with international universities. The Ministry of Youth Affairs and Sports has already signed MoUs with the Universities of Canberra and Victoria in April 2017.

The proposed university would be organized under four schools:

- School of Sports Science and Sports Medicine: Physiology and Anatomy, Biochemical Sciences, Applied Psychology, Sports Biomechanics and Movement Sciences, Preventive and Rehabilitative Sciences, Sports Sciences, Disability Sports and Adventure Sports, Clinical Sports Medicine Unit, etc.;
- School of Sports Management and Technology with the departments of Sports Management and Digital Media, Sports Technology and Architecture, etc.
